

QUICK FACTS ABOUT THE SOLUTION (1)

PACKAGING

RTE Bulk Blast Frozen products come in convenient 3 kilogram food grade 3-ply nyolon packaging, giving you the flexibility to portion your servings and avoid wastage. In fact, ZERO WASTAGE.

FOOD SAFETY

These blast frozen RTE packages are lab tested and then vacuum sealed for maximum protection and retention of temperature. They are also a safe way to transport RTE food from the plant to your platforms which may be hours away, without compromising the food quality.

VARIETY

Our current menu comprises several fast moving RTE staples which are popular in the food-service industry. However, do feel free to ask us about custom created menu items to suit your unique business demands.
